

CSOs Call to International Creditors of Bangladesh Suspend Realizing Debt Installments during COVID-19 Distress

We the following Civil Society Organizations (CSOs) from all over the world, are calling on the World Bank (WB), International Monetary Fund (IMF), Asian Development Bank (ADB), Asian Infrastructure Investment Bank (AIIB) and all bilateral, regional and multilateral development financiers of Bangladesh to suspend the realization of debt instalments for all public debts of developing countries combating the COVID-19 pandemic so that the current crisis is not aggravated.

Countries, irrespective of developed, developing and the Least Developed Countries (LDCs), are in a predicament due to the COVID-19 pandemic and are all facing an acute shortage of emergency protective devices and life-saving equipment. Bangladesh's economy is also severely under stress due to the additional burden of pandemic management while the country has a budget deficit of USD 17.65 billion in the current financial year. Despite the budget deficit, the Government of Bangladesh (GoB) has allocated an additional 9.06 billion USD as a bailout to the private sector. The GoB now needs a supplementary amount of USD 8.11 billion to fight COVID-19 in the health sector alone. Another USD 1.7 billion, over and above the national budget, is required for supplying adequate food to 34 million people living below the poverty line. Considering the calamitous situation, GoB needs at least USD 1.5 billion for providing subsidies in agriculture and rural economies dominated by micro, small and marginal (MSM) producers in order to ensure the food security of the country.

We want to urgently bring to your attention that the GoB budget for the current financial year is forced to allocate 6.20 billion USD for servicing external debts to International Financial Institutions. At this critical time if this servicing of public debts are suspended, the GoB will be able to put the amount into serving emergency health, food and agriculture sectors to fight the COVID-19 pandemic. We urge all the multilateral, regional and bilateral financial institutions to follow the suggestions proposed by the World Bank and IMF and suspend servicing of the public debts for 2020, so that GoB can free its limited resources and allocate it solely for helping the people in overcoming the COVID-19 challenge.

We therefore strongly demand the suspension of all instalments of public debt for at least the financial year 2020-2021 so that the country can better combat the pandemic and overcome the impact of this disaster on its citizens' health, food and economic vulnerabilities.

THIS STATEMENT IS SUBMITTED ON BEHALF OF 117 GLOBAL CSOs, BY:

1. **Hasan Mehedi**, Member Secretary, Bangladesh Working Group on External Debt (BWGED). Secretariat: 4 Mallick Bari Road, Boyra-Rayermahal, Khulna 9000, Bangladesh. Email: bwged.bd@gmail.com
